

DPD 3440-59
5 June 1959

MEMORANDUM FOR: Chief, Elint Branch, ED/SI

FROM : Chief, Communications Section, DPD-ED/P

SUBJECT : Read Out of System Six "P" Band Tapes

1. Forwarded under separate cover are three rolls of System Six tape which resulted from engineering modifications and tests aimed at improving the "P" band performance of the system and reducing the noise. The engineering report on this program, including a description of the received signals as Addendum I, is included for general information.

2. It is requested that an analysis be run on these tapes to determine the effectiveness of the modification, the reduction of noise, and the reception of AM as well as pulse type signals. Any comments will be appreciated.
